DDW-109

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--10 April 1985

CIPC Organizational Activities

- The next CIPC Meeting is scheduled for 22 April, at 1500 hours.
 - The meeting material (Terrorism Study) has been forwarded to the members for their review.
 - Copies of the Terrorism Study have also been sent to Charlie Allen, Bob [redacted] and we are in the process of forwarding copies to the working group members.
- We are also in the process of scheduling meetings for you with [redacted]

Combat Intelligence Analysis Report: [redacted]

- There have been no further developments on this issue, except to relate that the NSA representative to the task force will be going to Europe in the next few months [redacted]. He passed on his personal conviction that the CIPC report, especially as it relates to the DIA recommendations, should prove to be of significant help in his efforts. He also extended an invitation to visit him at an appropriate date and/or time. He feels, however, that the Intelligence Community has not heard the last of this issue and that he stands ready to assist us in any further review of the problem.

Narcotics Intelligence: [redacted]

- Most of the narcotics intelligence community is just returning from the East Asia Narcotics Conference held in Kuala Lumpur last week [redacted] will be seeing Charlie Allen to review our projected outline for completing the follow-up study on the implementation of the CIPC Narcotics Study. (LATE NOTE: As a result of the meeting, [redacted] believes he will have the full support of Charlie.)

~~TOP SECRET~~

TOP SECRET

- The "designer drug" question is attracting further public attention. [redacted] plans to discuss this issue with DEA and prepare a short staff paper on the implications for the Intelligence Community's allocation of resources on the narcotics target (attachment).

25X1

25X1 FLASHBOARD: [redacted]

25X1

25X1 FLASHBOARD vs DESIST: [redacted]

- The Community will soon have to consider the long range development prospect for each of these systems. Increasingly, suggestions are being voiced about the enhancement of one or the other. To this point, our position has been that the two systems are complementary and should continue to operate alongside one another, at least in the short term. Our expectation for the long term was that DESIST would prove the more useful of the two and supersede FLASHBOARD. The IICT Advisory Group on Information Handling will be looking at this problem.

CBW Intelligence Subcommittee: [REDACTED]

- On 4 April the CIPC CBW Intelligence Subcommittee met to coordinate its draft findings which were prepared by [REDACTED] As a result of that meeting, a revised draft has been prepared. The thrust and conclusions of the earlier version have been retained. In essence, the subcommittee found a mixed bag; while we know a lot about a few things, we know very little about a lot of other CBW-related topics. The subcommittee still believes that steps can be taken to improve the situation including devising a mechanism for interagency cooperation and coordination. Moreover, just by implementing the various proposals put forth by other groups would be a significant step to ensuring efficient use of limited resources.
- Copies of the revised draft will soon be forwarded to subcommittee members for their comments. Telephonic coordination will be requested about a week thereafter.
